STAR-D

SANGIACOMO STAR-D

Single-cylinder machine with dial needles for the production of quality socks in true rib with up to 4 colors. The Sangiacomo STAR-D is a high tech machine that combines productivity and quality with extreme simplicity of use.

SANGIACOMO

STAR-D

TECHNICAL FEATURES

DESCRIPTION

Single cylinder, dial needle machine with 2 feeds to produce quality socks with pattern with 4 colours (with diameter 3" 1/2, 4" e 4" 1/2) 3 colours (with diameter 5"). The STAR-D is a newly designed machine based on the structure and features of the previous model HT but works with a new Dinema electronic control and uses the Digraph 3Plus software. It knits with two feeds and has needles on the dial. The STAR-D comes in four diameters: 3" 1/2, 4" e 4" 1/2 - 5". Main machine motor is hollow shaft type integrated with cylinder housing. This solution eliminates the need of transmission between motor and cylinder thereby reducing friction and energy consumption.

MACHINE

2 Feeds machine with 6 selection units, (with ø 3" 1/2, 4" e 4" 1/2) 5 selection units, (with ø 5"). Needle by needle selection in any part of the sock.

FIRST FEED

5 selection units, 1 for ground and 4 for colours (with ø 3" 1/2, 4" e 4" 1/2); 4 selection units, 1 for ground and 3 for colours (with ø 5");

SECOND FEED

Can be used or excluded easily featuring 1 selection unit.

YARN FINGERS

8 on first feed and 4 on second feed, 3 for each of the 4 feeds for colour (with ø 3" 1/2, 4" e 4" 1/2), 3 for each of the 3 feeds for colour (with ø 5").

STITCH ADJUSTMENT

With step by step motors independently programmable.

PRODUCTION FEATURES

• Rib elastic welt • Double welt with possibility of 2 elastics in 2 feeds • 1:1 Rib socks and possibility to change to 3:1 – 5:1 etc. on leg and foot • Pattern sock with 4 colors plus ground with diameter 3" 1/2, 4" e 4" 1/2, 3 colors with ø 5", on plain fabric, terry or jacquard • Jacquard Sock 1:1 • Jacquard Rib Sock • Normal terry or sandwich terry sock • 2 feeds plus heel and toe reinforced sock • Multiple colour striped sock • Tuck stitch • Imitation of transfer stitch pattern • Imitation of links pattern.

CLASSIC LINKING (STITCH BY STITCH)

Traditional toe closing device supplied together with the Universal Turning device able to reverse all types of socks

PROGRAMMING

Digraph 3plus Dinema.

PRODUCTION DATA COLLECTION

Optional on request "NAUTILUS" system by Dinema.
